Dear Cattle Producers:

It has been a pleasure to assist with all thirty-two Judd Ranch Cow Power Female Sales. Dave, Cindy, Nick, Ginger, Brent and Ashley are some of the most dedicated, truthful and hard working ranchers I have been associated with through the years.

Breeders, when choosing a seedstock supplier I think there are several important things to keep in mind. Foremost are integrity/honesty and Dave and his family demonstrate those traits on a daily basis. Next is finding a source that has superior knowledge about the livestock industry and a basic approach to raising pure-bred cattle. When you add Dave Judd's honesty and extensive livestock knowledge together, they become a complete program with emphasis on superior females or Cow Power. Last spring Judd Ranch's Bull Sale featured 267 bulls with an 82 pound average birth weight/ 861 pound actual weaning weight average. The Judd Ranch program has been built around "Fertility and Pounds Produced Per Cows Exposed" and that is why Judd Ranch has been honored as the #1 Dam of Merit program in the Gelbvieh breed for twenty-one of the past twenty-five years ('98 thru '22). EPDs are an estimation of how an animal should perform, but Fertility and Pounds are actual data that will keep you in the cattle business.

On October 8th Judd Ranch's Cow Power sale offering will feature 170 homozygous polled females and Gelbvieh breeders; what convenience trait will give you a better return on your investment than homozygous polled genetics? Our Cattlemen's Connection AI semen sales feature over 100 Gelbvieh and Balancer A.I. sires and for us, over 95% of all sales are homozygous polled sires. Every homozygous polled bred female in the upcoming Cow Power sale is safe in calf to a homozygous polled sire and you will be the beneficiary when you start selling these homozygous polled progeny. Now let's key on the Cow Power selling as 100% of the sale offering of Gelbvieh and Balancer females feature Judd Ranch Dam of Merit cow families. Also please consider the fact that 99% of the sale offering is sired by breed-leading AI sires. Affordability is another reason to join us on October 8th, as the past twenty-three "Cow Power" Female Sales have only averaged \$2,653 on 2,765 head and folks, the last twenty-three Judd Ranch bull sales have averaged \$4,911 on 5,327 head. It is easy to see the females have averaged just 54% of the average price of the bulls-their very offspring.

As always, please feel free to give me a call toll-free at 1-800-743-0026. If you have questions about any female in this catalog or would like assistance in selecting females for your program,. In case you are unable to attend the sale, I will be happy to purchase a female(s) for you within your price range, and we will guarantee your satisfaction with the animal(s) selected, with no fee for order buying. Annually, 25% of the Judd Ranch gross sales are purchased through this time and money saving program, and you pay only the bid price, just as if you were bidding yourself. You can reach me at 1-800-743-0026 until October 3, after that date, please call my cell phone 785/547-6262 during the day, as I will be at Judd Ranch. In the evenings, please call my cell phone (785)547-6262 or the sale motel headquarters, Comfort Inn, Ottawa, Kansas 785/242-6150.

*The Judd Family*

Dear Gelbvieh friends,

The Judd family invites you to be with us for our annual Cow Power Female Sale events on Friday, October 7 and Saturday, October 8. We appreciate you taking the time to read through our sale catalog.

Our 32nd annual Cow Power Female Sale is just around the corner, and Cindy and I are just as excited about this sale as we were the first. Our family is so thankful for our returning customers, many are some of our longest standing friends. Our whole family would also like to extend a special invitation to any new producers joining us this year. Many of our repeat customers started by attending a sale or two before making a purchase. We hope you can make it to the ranch on Friday, October 7th to look over the sale offering, meet our family, have your questions answered and make some new Gelbvieh friends. We feel there is something for everyone, as we have one of our largest selections of females ever offered.

At Judd Ranch we stay focused on our goal of producing Gelbvieh cattle with an emphasis on calving ease, fertility, growth, and carcass. Our females must calve by two years of age, keep a tight calving interval, wean off an above average calf, maintain their body condition and a high-quality udder. Thanks to our "Cow Power" females, Judd Ranch has been named the #1 Breeder and Owner of Dam of Merit females for twenty-one of the past twenty-five years ('98 thru '22),

Once again, our popular judging contest will be another highlight on sale morning. We will be offering both adult and junior judging contests. There will be three divisions: adults, senior (13-18 years) and junior (for the 12 and under set). The first place in each division will receive \$250 sale credit and the second place will receive \$150 sale credit to be used exclusively in the 2022 female sale. Plus, other cool prizes.
